Information on the Kansai Area
COLUMN

Our mission is to continue to be an organization always valuable to developing countries.

PREX celebrated its 19th anniversary of the founding, with the total number of participants from 124 different countries and region amounting to 12,000 up to the last year.

PREX alumni associations have been established in thirteen countries and regions in Asia and the Pacific, which are organized mainly by those who have attended seminars in Japan.

This year we will organize 35 events, comprising 26 seminars in Japan, six overseas seminars and three exchange events. 19 of them were based on our own initiative (under the Initiative of Project Proposal), while 2 were new seminars. We will continue in our drive to improve this year, with our aspiration to become an indispensable player for developing countries and Kansai Region. We take this opportunity to thank all those who have helped us, and ask for your continued support.
